Zuyd-hollandia ſtrictius ſumta.

HOllandia in plures partes dividitur, quæ peculiaria nomina ſortiuntur, ut Kennemariam, Waterlandiam, Goelandiam, & ſimiles: ſed maxime communis & alicujus uſus diviſio eſt, in Auſtralem & Septentrionalem. quarum hæc etiam Weſtfriſia dicitur. Eſt tamen & ſtrictior *Zuydhollandiæ* notio, quæ maxime propria eſt, & longa antiquiſſima, qua ſignificatione eam Hollandiæ Auſtralis partem ſignificat, in qua Ius Zuydhollandicum jam inde à priſcis temporibus viguit, & unde primum in alias vicinas terras emanavit; vel, ut verbo dicam, Baillivatum Zuydhollandicum, cujus metropolis eſt Durdrechtum, unde Durdrechtanæ inſulæ nomen. Circumſcribitur hæc Moſa præcipue flumine, & alveo exiguo, qui recta eam ſecat, Striam & Occaſum verſus, *de Kil* dictus. Ad Ortum & Auſtrum latus ſe ſinus pandit, cujus una pars, quæ Geertrudis montem ſpectat, *de Biesbos* appellatur, à fundo juncorum ſive ſcirporum, ob exiguam altitudinem, feraci. Altera Zelandiam verſus, *'tHollands-diep*. Alluit urbem Moſa, abſorptis una in ſe Merva, & Linga. Non deſunt, qui adſerant, illam quatuor adjacere fluminibus, juxta diſtichon,

Zuyd-hollandiæ metropolis.

Me Moſa & Vahalis, cum Linga Mervaque cingunt,
Æternam Batavæ Virginis ecce fidem.

Vtut ſit, redacta eſt inter has ipſas in Inſulæ formam, idque anno CIↃCCCCXXI, quo tempore Vahalis ſimul & Moſa, exæſtuante in eos Oceano, ex agro antea inter hanc ipſam urbem, & Brabantiam interjecto, effecerunt immenſum illum aquarum gurgitem: abſorptis violenter 72 pagis, & aliquot hominum millibus. Accidit hoc anno ſupradicto, menſis Novembris die 18, noctu, feſto S. Elizabethæ, irrumpentibus aquis prope pagum *Wieldrecht*. Exſtat Chronologicum tale:
